MAGIC BAKING POWDER

Contains no alum

We unhesitatingly recommend Magic Baking Powder as being the best and purest baking powder possible to produce. It possesses elements of food that have to do the building up of brain and nerve matter and is absolutely free from alum or other injurious substances.

Lord Grey Likely.

London. — Viscount Grey of Faldo, who retired as head of the British foreign office in 1916, it is understood, is likely to accept the post of British ambassador to the United States.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

OUCH! 1-2-3! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called Ictezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right off without pain. He says Ictezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of Ictezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

Some women marry for love, some for a house and a few to spite the other woman.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

All That Is Necessary.

Prices of food have fallen 50 per cent. in Germany. You can buy a ham for \$12.5 if you have the money and can find the ham.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Cure is within reach of all.

"Prayer flags" are a unique labor-saving device employed by the people of Tibet. The flags are suspended on long lines, and while they are moving in the breeze they are supposed to be recording prayers for the benefit of those who put them up.

Instead Of Tea Or Coffee

buy a tin of the healthful table beverage

INSTANT POSTUM

The quality is constant and the rich, even flavor pleases.

No Raise In Price

German Trade

Disappointing

Unsafe To Dispatch Merchandise Without Payment In Cash.

London. — The wireless press Copenhagen correspondent writes that great hopes have been entertained in many quarters in Denmark since the armistice of a new period of enrichment through the resumption of trade with Germany, but that it is becoming evident that these hopes must be disappointing.

It is now realized that owing to Germany's critical financial position it is highly unsafe to dispatch large quantities of merchandise to that country without payment in cash, and as this condition is rarely complied with very little business is being done. Meanwhile great satisfaction is expressed in Danish newspapers with the reported intention to establish a French Chamber of Commerce at Copenhagen.

Minard's Liniment Cures Diphtheria.

Montreal As A Port

Handles Ocean Traffic Greater Than Any American City Except New York.

It may surprise some readers to learn that for the seven months or so during which it is open the port of Montreal handles ocean traffic greater than that of any American city except New York. Its tonnage is also steadily increasing and better methods of ice breaking have extended its season. It has strategic advantages similar to our own in being a railroad terminus and central distributing point for trade converging from a vast territory.

And Canada is alive to its great importance. The Dominion government co-operates liberally with local enterprise. Recently \$28,000,000 has been spent on terminals, dredging, docks and other things necessary to security. The department of marine is at work deepening the St. Lawrence to thirty-five feet to the sea, and the channel should be complete in a short time.

They not only talk about things, but do them, and do them well. It is another example for our congressmen to ponder, as well as an incitement to our own activity.—New York Sun.

Wireless To Bermuda.

Ottawa. — The department of the naval service announces the inauguration of a commercial wireless service between Canada and Bermuda. It has been established between the Canadian radio telegraph station at Barrington Passage, N.S., and the British government station at Bermuda, and is open for public service.

Proverbs are but the offspring of practical experience.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying the best of remedies—Mother Graves' Worm Extirminator.

General Byng for Canada!

Now that the Duke of Devonshire's tenure of office as Governor-General of Canada is coming to a close, Canadians are turning their thoughts to the selection of a successor. There is a growing feeling, I hear, that the choice should fall on General Sir Julian Byng, who as Commander of the Canadian Corps endeared himself to all Canadians.—London Evening Standard.

Chinese Boycott

Japanese Goods

Evidently Giving Japan Cause For Pretty Serious Thought.

One of the very interesting things happening just now in the world is the indignant boycott of Japanese goods by the Chinese people, a form of protest which is, evidently giving Japan cause for pretty serious thought. So long as the wisdom of China maintains a peaceful boycott there is, seemingly, little that Japan can do but meditate on the fact that about 75 per cent. of her exports go normally to China, and wonder how long China will stick. Meantime the Chinese newspapers counsel the public against any action that can be construed as a departure from this peaceful procedure, and in nearly all the advertisements of Chinese merchants appears the phrase, "We sell no Japanese goods." A peaceful boycott might be called a cautious kind of revolution, and as once said Confucius, "The cautious seldom err."—Christian Science Monitor.

Nothing Like It For Bronchitis And Weak Throat

Remarkable Cures in the Worst Cases Reported Daily.

Cures Without Using Drugs.

Doctors now advocate an entirely new method for treating bronchitis and irritable throat. Stomach dosing is no longer necessary.

The most approved treatment consists of a healing vapor resembling the pure air of the Adirondacks. This healing vapor is full of germ-destroying substances, and at the same time is a powerful healing agent. It is sent through the bronchial tubes and lungs through a skillfully devised inhaler that can be carried in the vest pocket. Simplicity itself is the keynote of this splendid treatment.

CATARHOGONE is the name of this wonderful invention that is daily curing chronic cases of weak throat, bronchitis and catarrh. Every breath through the inhaler is laden with soothing, germ-destroying substances that destroy all diseased conditions in the breathing organs, it can't fail to cure because it goes where the trouble really exists, and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. Catarhogue is a direct, breakable scientific cure.

There is no sufferer from a grippy cold or any winter ill, that won't find a cure in Catarhogue, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and cost \$1.00 and is guaranteed; small size 50c, sample 25c.

Poverty is no disgrace, but it's a mighty good excuse for heading off a borrower.

If a man is your friend he doesn't have to tell you so.

MURDERED.

Put right out of business, a whole family of corns by Putnam's Corn Extractor, which cures corns and warts in one day. No pain or sore if "Putnam's" is used. Refuse substitutes, 25c per bottle at all dealers.

Independence Is Real

South Africa Gains Advantage Through Being of British Empire.

London. — The Times' Capetown correspondent quotes the Cape Times' comment on Lord Milner's Oxford speech when his lordship emphasized the position of independence of the dominions within the league of nations.

"The independence which South Africa has gained," says the Cape Times, "is a real and tangible thing which owes its being to the existence of the link with the British Empire. The independence for which some cry is unreal and intangible and can never be achieved and if realizable would find South Africa short of the capacity to develop and minutely handicapped in the struggles ahead."

A man thinks that there is only one man in the world whose whistling is not a nuisance.

W. N. U. 1277

Cool Comfort

It's Sunday morning—blazing hot, and pretty near a whole day before you for rest and recreation.

First, then—a shave. Whether you are going for a spin in the car, taking the family to church or visiting a neighbour, you cannot go with a day's growth of beard on your chin.

The thought of shaving won't be irksome if you own a Gillette Safety Razor—rather, you think of five minutes' cool comfort with the highest type of shaving edge ever developed. No man in the world can command a keener blade than the one you slip into your Gillette.

And if Gillette shaving gives you an added joy to your Sunday, why not take five minutes every morning for a clean shave as the start for a better day's work.

For \$5.00—the price of the Gillette Safety Razor—you have your choice of the Standard Gillette sets, the Pocket Edition sets (just as perfect, but more compact) and the Bulldog Gillette with the stocky grip. Ask to see them TODAY at the jewellers, druggists or hardware dealers.

War Savings Stamps

Are Selling Well

Campaign in Canada Is Progressing Most Favorably.

That the War Savings Stamp Campaign in Canada is progressing most favorably is shown by comparing the per capita sales for the month of May, against those for the same period in the United States. In Canada during the month of May the per capita sales amounted to .054 while in the United States they were .06.

Considering that in the United States the War Savings Stamp Campaign commenced one year in advance of the campaign in Canada and that our American cousins had the stimulus of war propaganda for about a year to introduce the Thrift Stamps, the comparison is very favorable to this country.

Minard's Liniment Cures, Colds, Etc.

To Him Who Waits.

Stranger: Can I get a drink in this town?
Native: Yes, if you hang around a while.

Stranger: About how long?
Native: Why, until Congress changes the Constitution again.

Shah Gets Out of Persia.

Paris. — The Shah of Persia with a suite of twenty, will leave Teheran for Switzerland. It is learned here, Forouz Kahn has been appointed minister of foreign affairs of Persia, succeeding Mochafer El Mulk, who has been named minister at Rome.

SUMMER HEAT

HARD ON BABY

No season of the year is so dangerous to the life of little ones as the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not promptly treated. During the summer the mother's best friend is Baby's Own Tablets. They regulate the bowels, soothe the stomach and keep baby healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

While the fool takes things as they come, the wise-guy goes after what he wants.

Sad Death of Mr. Walter Landymore at Edmonton

For the second week in succession it is our painful duty to record a sudden death. Mr. Walter Landymore was on his way with some horses to sell, on Wednesday week whilst in Edmonton he was suddenly seized with an attack from which he expired. Mr. Landymore had not been in the usual health for some time, and a few months ago consulted a specialist in Calgary. He was born in Suffolk, England, in 1860, came to Canada in 1887 and resided in the east for a number of years, coming west he located in Midnapore and lived there for some years, removing to this district 17 years ago. Mr. Landymore was of a rather reserved disposition, a close observer of nature, a lover of botany and animal life, and was much interested in matters pertaining to natural philosophy and the deeper things of life, he was of a most unselfish nature, and will be greatly missed by all who knew him. He had been a Councillor of the Rosebud Municipality for the last two years. Mr. Landymore leaves two daughters and two sons to mourn their loss, also three brothers and one sister in England, a brother in Calgary, and brother George and two sisters Mrs. Borbridge and Mrs. Garwood in this district.

The remains arrived from Edmonton on the noon train on Friday last and were conveyed to the deceased's late residence.

The funeral took place on Saturday last, and was conducted by the Rev. W. A. Smith, R. A., of Calgary, a short service was held at the house, prior to the removal of the remains for interment.

A public service was held in the Union Church at 2-45 p.m., when the building was packed with relatives and friends who attended to pay their last respects to the deceased gentleman. The Rev. gentleman spoke words of hope and encouragement to those assembled. There was a large gathering followed to the local cemetery where the concluding service was held.

The floral tributes were numerous of which the following is a list:

A beautiful wreath from the bereaved children, bearing the inscription 'Father.'

From Mrs. Garwood and Laurence:

Jesus, while our hearts are bleeding,

O'er the spoils that death hath won,

We would at this solemn meeting

Calmly say "Thy will be done."

Though cast down, yet not forsaken,

Though afflicted, not alone,

Thou didst give and Thou hast taken,

Blessed Lord "Thy will be done."

Sister Eliza and Laurence.

From brother Leonard:

"Our Deepest Sympathy."

Leo, Jessie and Family.

From Mr. and Mrs. Borbridge:

"With Deepest Love."

Tom, Emma and Children.

From Mr. and Mrs. G. Landymore.

From Mr. and Mrs. Bliss:

In Loving Memory of Uncle Walter.

"Asleep in Jesus."

Katie and Louis and Children.

From B. Lilley:

In Loving Remembrance of Uncle.

"He giveth His beloved Sleep."

From Bert.

From Violet Landymore.

"Our Deepest Sympathy."

Lines in Memoriam

(of Walter Landymore)

Thou art gone to thy eternal rest,

For ever with the redeemed and blest.

The heritage of all born in sin,

Christ died that all may enter in.

Friend and neighbour tried and true,

Kind, generous, helpful; and thoughtful too

Thou hast left an influence pure and good,

With those living in this neighborhood.

You yearned to meet those who have gone before,

And was ready to leave this earthly shore.

Life here uncertain with suffering and pain,

(But when a man dies he shall live again).

Those comforting words, from a saintly man,

Secured a message from God at (Beaver Dam).

As he attentively listened and took it all in.

The blood of Christ cleanses all our sin.

Father, brother, neighbour and friend,

A faithful servant, for ever shall end—

Our souls are here, so let us prepare

With lamps trimmed and ready to enter there.

J.M.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 20th September, 1919, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice per week on the CROSSFIELD RURAL ROUTE No. 1, from the Postmaster General's pleasure.

Farmers Give Opinion Before Wheat Board

Winnipeg. — The Canadian wheat board says it hopes to be in a position to make public the plans and regulations for the handling of the 1919 wheat crop some time this week.

"In the meantime," the board says in its statement, "in order to obviate undue hardship to the producer, the Canadian wheat board suggests that, temporarily, farmers should deliver their wheat to the elevators and obtain storage tickets therefor. The elevator companies or banks will undoubtedly make satisfactory advances against these storage tickets. When later the regulations and methods in connection with the pooling system are known, the farmers can convert the storage tickets issued by the elevator companies into cash tickets and secure the initial payment, as fixed by the board, and receipts enabling them to obtain participation certificates at a later date."

"What might be construed as a slight threat on the part of the farmers to go on strike if the government fixes the initial price of wheat at anything less than the \$2.26 guaranteed by the United States to its producers, was made by J. K. McLennan, representing the United Farmers of Ontario, at the open session of the Canadian Wheat board in the Winnipeg Grain Exchange."

"We are facing a short crop," he said. "If the \$1.75 initial price rule, we may find the crop returns still shorter. Strikes are popular and the farmers might be inclined to catch on. The farmers are cross already."

The board room was packed to the doors with the representatives of various interests, including millers, bakers, consumers, farmers, grain growers and board officials. James Stewart, chairman of the board, presided. The meeting was called for the purpose of ascertaining the views of those interested in the handling

and marketing of the 1919 grain crop of Canada, as well as that of the general public.

Other outstanding features of the meeting were:

An emphatic denial from the chairman that the initial price had been fixed by the government at \$1.75; he declared that such a price had not even been considered.

A resolution from grain growers of Little Souris strongly condemning and denouncing the scheme as impracticable and unsound economics and demanding that if the government is determined to handle the 1919 wheat crop that the same price as last year be set.

A violent attack on ocean freight rates by J. K. McLennan. He declared it now costs 60 cents to get a bushel of wheat across the Atlantic, in comparison with six cents for previous years. Eighteen cents was the highest bid in justice, he declared.

A further statement was made by Mr. McLennan that "there are heavy millers, big grain men and freight men in this country who are taking advantage of their positions to rake in big sums of money."

An insistent demand was made by almost all speakers that if an open market is denied the farmers and the government plan of handling the wheat is carried out, that the initial price be not made less than that of \$2.26, now ruling in the United States.

J. R. Murray, of the United Grain Growers, thought the only way to arrive at a fair price for the farmers was to give them the prices obtaining on the open world market. Otherwise nothing less than the \$2.26 of the United States should be set. If the consumer must have cheap bread, he said, let it be so, but let it come through a government bonus rather than at the expense of the farmers.

Taking Some Action In U.S.

Grocer Fined \$500 For Selling Sugar At 15 Cents Per Pound.

Washington. — Important new developments in the government's fight to reduce the high cost of living have now been made public.

One of the most interesting was the announcement by Attorney-General Palmer that the first federal conviction for profiteering had been obtained. District Attorney Lucy telegraphed from Binghamton, N.Y., that a retail grocer had been fined \$500 for selling sugar at 15 cents a pound. No details were given and the law under which the case was brought was not known here.

"A few good cases of profiteering in each state will settle that trouble," Mr. Palmer remarked. In order to bring to book persons guilty of raising prices exorbitantly or hoarding food to advance prices, Mr. Palmer submitted to the agricultural committee of congress the draft of an amendment to the Food Control act extending its provisions to clothing and containers of foods and feeds, and providing a penalty of \$5,000 fine or two years' imprisonment or both for violation of the law.

To Prosecute Bela Kun.

Copenhagen. — The Hungarian public prosecutor has issued an announcement that proceedings will be begun against all individuals charged with crimes during the Bela Kun dictatorship, and that steps have already been taken for their arrest and extradition, according to advice from Budapest.

Another announcement says that it is intended to prosecute Bela Kun and his associates for murder, robbery and forgery.

To Combat High Cost of Living.

Winnipeg. — Concerted action by all military and labor organizations in a fight for the reduction of the high cost of living was suggested in a letter from the Order of Railway Conductors, division 604, considered at a meeting of the Army and Navy Veterans' association executive. The suggestion was unanimously adopted and a committee was appointed to co-operate.

Must Leave Dominion

Schoppelei Ordered Deported By the Immigration Board of Inquiry.

Winnipeg. — Oscar Schoppelei, branded as an undesirable alien, and ordered deported by the immigration board of inquiry, must leave Canada. The Manitoba court of appeal refused to grant an application made by counsel in Schoppelei's behalf that the deportation order be annulled and all proceedings quashed. The high court in its written judgment found that the order for Schoppelei's deportation was based on two grounds: first, that he had come into the country by misrepresentation; and secondly, that he had refused to answer certain questions put to him by officials. Their lordships pointed out that under section 23 of the immigration act they had no jurisdiction to interfere.

Six Months On Ice Floor.

Edmonton. — Six months adrift on an ice floe in the Arctic sea, cut off from all civilisation by miles of deep water, such was the experience of Storke T. Storcken who arrived in the city last night from the great northern wastes. Observations of great scientific value were made while the party was on the ice floe, but these will not be fully discussed until Storcken meets his chief, Steffensen in Banff next Saturday and prepares his full report.

Conference of Brewers.

Atlantic City, N. J. — Believing that a revulsion of feeling against prohibition can be concentrated for the repeal of the liquor statutes, the brewers of the nation have called a big conference here for September 28. The meeting will continue a week.

On a Live Visit.

Berlin. — With the permission of the Dutch government, the former German crown prince has just spent several days with his wife and children at Soden, Prussia, and accompanied them part of the way back to Potsdam, according to the official Zeiger. The newspaper adds that Frederick William has now returned to Holland.

Allied Success In North Russia

Good News of Contest With the Bolsheviks on Russian Front.

London. — Six Bolshevik battalions were destroyed in a successful Anglo-Russian attack on the Divina river on August 10, the war office has announced. More than 1,000 prisoners, 12 field guns and many machine guns were captured. The Anglo-Russian front on the Divina was pushed forward 12 miles. The official statement reads:

"In North Russia, Anglo-Russian troops, on August 10, attacked the Bolshevik forces on the Divina with great success. All the objectives were gained. Six enemy battalions were destroyed, the troops being either killed, captured or dispersed. More than 1,000 prisoners, 12 field guns and many machine guns were captured. Our line on the Divina was advanced 12 miles to Thadomov and Borok."

Curb Profiteering in Britain

Amendment Passed British House Empowering the Board of Trade To Fix Prices.

London. — The house of commons, after heated debate, adopted an amendment to the profiteering bill, empowering the board of trade, after an investigation, to fix wholesale and retail prices. The vote was 132 to 95.

The amendment was denounced, among others, by Lord Robert Cecil, former minister of war trade, who expressed amazement that the government should accept an amendment destroying the whole basis of the bill and revolutionizing the trade of the country. Sir Donald Maclean, a Liberal member, also denounced the amendment, characterizing it as "rank socialism of the most muddled kind."

In the course of the discussion on the bill, Sir Auckland Geddes, minister for national service and reconstruction, indicated that the bill would empower the board of trade to fix prices in "a case where the community was likely to be bled by any combination, national or international, for the purpose of increasing prices. An amendment seeking to include profiteering in rental within the scope of the bill was rejected.

Ferdinand's Millions

Seizure of Securities Will Not Altogether Ruin the Ex-Monarch.

Geneva. — The seizure in England of securities belonging to former King Ferdinand of Bulgaria, valued at \$2,000,000, will not altogether ruin the ex-monarch, according to reliable information obtained here. It is said that Ferdinand toward the end of 1914 took the precaution of placing his fortune abroad, mostly in neutral countries, Swiss banks, for instance, are said to hold stocks and bonds belonging to Ferdinand, valued at nearly a million pounds sterling.

Large sums were also placed in Hungary where Ferdinand is now a fugitive with his family.

Prince's Visit to U.S. Is Uncertain.

Ottawa. — Nothing is known as yet at the capital as to when the Prince of Wales is likely to visit the United States or the duration of his stay in that country. No decision will be reached in regard to the matter until later, but it is certain that the prince cannot leave Canada until the conclusion of his Canadian tour.

"Bavarian Free State."

Copenhagen. — A despatch from Bamberg, under date of Tuesday, says that the Bavarian diet has adopted a constitution for the "Bavarian free state." There were three dissenting votes. A Socialist amendment to the constitution, abolishing all titles of nobility, was rejected.

Deserting One Big Union.

Vancouver, B.C. — Important desertions from the local ranks of the One Big Union took place here when the local union of the international longshoremen, the ship workers and the pressmen and press feeders voted to resign from the One Big Union.

Board To Deal With High Cost of Living

Ottawa. — The Canadian board of control has been officially constituted, with Judge H. A. Robson, of Winnipeg, as chairman, and W. F. O'Connor, K.C., former chief of living commissioner, as second member, and these two gentlemen have had a conference with the government and have already started work. Judge Robson has arrived in Ottawa and shortly afterward met members of the government. The third member of the board, it is expected, will be named within a couple of days.

The board will act under the Combines and Fair Prices act and is given power to institute investigations on its own motion or at the request of ministers or other responsible persons bringing matters to the notice of the board.

When seen by the Canadian Press, limited, Judge Robson was emphatic in his statement that there would be no fuss and no disclosure of what the working of the board. "This is to be a people's court," he declared, "and to be so it must be easy to approach. Any bona fide citizen who

has a just cause for complaint will find us ready to give him a hearing and we will get down to work just as soon as possible."

The chairman of the new board stated, however, that the board would of necessity investigate the facts behind a complaint before holding sittings at any point. This was necessary, he stated, because the board has jurisdiction from coast to coast, and a complaint might take them from Halifax to Vancouver on a wild goose chase if it were only made because of some man's theory.

The two members of the new body had a long conference and will be together most of the time during the next few days drawing up simple rules of procedure and getting together the necessary small staff and office organization for their work. Judge Robson expects to return to Winnipeg within a short time to finish his work as chairman of the royal commission investigating the recent strike disorders there, but will be back in Ottawa again with a very short time.

To Aid Admiral Kolchak

Material Is Being Rushed to Vladivostok By the United States.

Washington. — Material aid for Admiral Kolchak's retreating army in Siberia is being rushed to Vladivostok by the United States. It was said officially, that 45,000 rifles and several million rounds of ammunition already had been sent from San Francisco, and that additional equipment would go forward this week on an army transport.

The amount of material ordered to Siberia by the United States, but was said to be "very large" and to include motor vehicles and medical supplies, as well as rifles and ammunition.

The original consignment was materially increased after the recent reverse of Kolchak's army, it was said.

Serbia A Country Of Orphans

Invasion Carried Half a Million Children From Parents.

Belgrade. — The war has made Serbia a country of orphans. There are 200,000 who lost both their parents, and 300,000 more who lost one parent, according to statistics compiled by Red Cross workers from records in the Serbian educational institutions. Some 10,000 or 15,000 inhabitants have between 2,000 and 3,000 orphans.

The occupation of Serbia for three years by the enemy and the subsequent deportations, combined with the great retrocession in 1915, which carried half a million children in its wake, separated numberless children from their parents.

Feeding 20,000 Children.

Paris. — The American relief administration began the task of feeding 20,000 children in Budapest as part of its plan to give food to the children of Central Europe, it was announced. It was said this did not involve a general relaxation of the food blockade against Hungary.

A Vienna despatch received from London announced the Allies had lifted the blockade against Hungary, but there has been no formal announcement of this by the supreme council.

Hungary Seeks Loan.

Berlin. — A group of Hungarian banks will attempt to negotiate a loan for the new government at Budapest, according to despatches received here, the government having been unable to borrow the 1,500,000 crowns sought from Austro-Hungarian banks.

Rome. — The Italian troops attacked to the allied expeditionary force in northern Russia left Murmansk on August 9. The Italian military commission accompanied the troops.

W. N. U. 1277

British Ambassador To U.S.

Viscount Grey Has Accepted the New Post Temporarily.

London. — Viscount Grey, former British secretary of state for foreign affairs, has agreed to represent the British government at Washington, pending the appointment of a permanent ambassador.

Viscount Grey of Fallodon (Sir Edward Grey) comes to the United States to represent the British government after a brilliant career as head of the British foreign office. For seven years, prominent in the political affairs of Europe, he was secretary of state for foreign affairs, from December 11, 1905, to December 11, 1916, owing to several occasions during that period, it was the initiative of Sir Edward Grey that caused the gathering clouds of war to disappear. It was he who made the last effort to prevent the great European war when he urged the ambassadors of the leading powers to meet and discuss the situation in an attempt to put off hostilities. His effort failed through the attitude of the German government and the German emperor.

Gladstone, under whom Sir Edward served in his younger days, described him thus:

"I never knew in a man such aptitude for political life and such disinclination for it."

Since his retirement from the foreign office, Viscount Grey has been living in retirement in Northumberland. The new ambassador's eyes began to trouble him in 1918 and at one time it was reported he was totally blind. This report was exaggerated, but the viscount has difficulty in reading, although his eye trouble has improved somewhat.

General Currie Is Defended

Officer Says Criticism for Canadian Losses at Passchendaele Not Warranted.

Kington, Ont. — Speaking at the banquet tendered to the visiting delegates to the convention of Union of Canadian Municipalities, General Sir Archibald MacDonell, the new commander of the Royal Military College, defended General Sir Arthur Currie from the criticism levelled at him because of the losses suffered by the Canadians at Passchendaele.

General MacDonell, "the man who took Hill 70," said he was present when Sir Douglas Haig told General Currie to take Passchendaele, and the Canadians took it, after the Australians, New Zealanders and Britishers had failed.

Referring to the Canadian casualties, the speaker said, according to figures recently published, the Canadians suffered the lowest percentage of losses and made the highest percentage of gains.

Another speaker was Mayor Hardie, Lethbridge, who declared for a middle course on the liquor question, neither too wet nor too dry.

System On Farms

Methods By Which One Farmer Attained Success.

The manner in which B. A. Wright, managing director of the Wright Farms at Drinkwater, Saskatchewan, and one of the most successful farmers in the province, began farming in Western Canada is similar to that in which many other successful farmers have begun and are beginning in this country.

"A few years ago," says a writer in an agricultural paper, "Mr. Wright saw some real good money in sight in breaking up the virgin prairie south of Moose Jaw, just at the time when there was a big influx of American settlers into that part of the country. He purchased a tractor, and started taking contracts from the new settlers, getting enough of these contracts to keep his outfit working night and day. Then, he gradually began to purchase land for himself and got his friends interested, till now he has something over 12 sections, nearly all under cultivation, close to the town of Drinkwater, as well as some leased land on which he runs bunches of horses and cattle.

"Of the 12 sections aforementioned, Mr. Wright farms three and a half for himself, the remainder he lets out on shares to approved tenants, putting up the necessary buildings, supplying horses if need be, and working the whole under a scheme which he finds yields him very remunerative returns.

"A brief sketch of crop rotation followed on the Wright farms may be of considerable interest.

"It is as follows: Each farm of one section is divided up into six plots. One plot is laid down to permanent pasture, preferably grass, and this is left for three years. The second plot is sown with winter rye, giving a late fall and early spring pasture. The third is sown to oats and rape, on which cattle are put to eat up the oats, followed by hogs to clean off the rape.

"The fourth is a pure-bred seed crop, and the fifth, a cultivated crop, preferably corn; while the sixth is left in fallow. This method fills out a six-year rotation and is an ideal rotation for the mixed farming methods followed on the Wright farms. In connection with these methods, Mr. Wright keeps a splendid system of costs, and knows at any time just how much money it costs with any other operation on the one of these plots.

"For instance, each day the foreman fills out a card, detailing the work done on any given plot, thus the hauling out of manure, and the cost of this manure is checked up to the plot which receives it, and the same with any other operation on the one of these plots.

"Another good method employed by Mr. Wright and which in itself goes a long way toward establishing an interest in good stock, is to have his tenants meet every now and again at the home farm, discuss methods of operation between them and look over the livestock."

Prince Henry Danger To German People

German Papers Criticize Plea For Former Emperor.

Berlin. — Commenting on the letter written recently by Prince Henry of Prussia, brother of former Emperor William, to King George, in which he asked the British monarch "in the name of justice and in his own interests" to desist in demanding the extradition and trial of the former emperor and declaring that the truth about the war might be had from allied statements, the Tugend-Blatt says it is an exhibition of "unpardonable clumsiness."

The Vorwaerts remarks that Henry's charge that the principal guilt for the war may be attributed to Great Britain is without a lot of evidence. This newspaper, which the Socialist organ, terms Henry "a danger to the German people."

Die Freiheit considers it a disgrace that a scion of the Hohenzollerns "at this time has the impudence to use such language," but the Conservative Tages Zeitung says the letter "with refreshing clearness pointed out British guilt."

There is always hope for the fool who minds his own business.

Traveler Appreciates Kind Treatment

Conductor Surprised By Receiving Bequest of \$15,000.

Street car conductors in the suburbs of an overpopulated city like New York have an exceptional opportunity to apply Pope's maxim that "true politeness consists in being easy one's self, and in making everybody about one as easy as one can"; the conductor, one might say, is the host of the trolley car, although it is not one of his functions to introduce his guests. Whether or not he had ever read Pope, one conductor seems to have practiced the maxim, for he was, the other day, surprised by receiving a bequest of \$15,000 from a traveler, "as a mark of appreciation for his kindly treatment of me and other passengers," when he had no personal interest in us beyond his official duty." Such conductors and such passengers are perhaps about equally rare, but it is pleasant to hear of them, and certainly no harm is done if the hearing raises for a while the standard of politeness in a world where street cars are not the only places where a higher standard would make life pleasanter for everybody.—Christian Science Monitor.

Stay Out Of Germany

Let Germans Know They Are Held Responsible For Millions of Lives.

It seems to me high time that some one was organizing another society or that the American Defence League should pass around a pledge; a pledge that should receive 100,000 signatures in a week, 1,000,000 even without delay.

This pledge is one that will hurt the Germans' feelings, I hope, and make them realize how the rest of the world regards them, which as yet they do not understand. This society should take in all of America and much of Europe, too. Neutrals can here show their feelings.

Here is the pledge, a simple and easy one. Not to go to Germany within ten years unless compelled by business, that will injure no one. Of course, we don't expect the German-born to sign, or any who have near relatives there. Some men, perhaps a few women, must go on business, but they can sign. The Germans must manufacture, must buy and sell if they are to pay their debts. But I purchase none of their cloth, which may have been made on stolen Belgian or French looms.

Why not go to Germany? Why should one go? There are no battlefields to visit no desolate villages, ruined cities, fields laid waste, forests destroyed. Spend what money you can afford for travel in helping the poor peasants, the innkeepers, the factory workers of France to restore their shattered homes and desolated country; those in Belgium, in Italy, in Serbia, too.

And let the Germans know that they are held responsible by the whole world for the millions of lives lost, the saddened homes, the poverty and starvation in many quarters, the waste of billions of money, the anarchy rife the world over. They all rejoiced over the deadly work of the submarines, the bombing of Paris and London, the liquid fire and gas and all the rest, supporting the Kaiser and the Junkers up to the last moment. They are sorry they lost, but not one word or sign of repentance have they given. Do the self-heated say "forgive?" Christ said, "If thy brother repent forgive him." Let us not try to improve on that, but strive to deal justly.

"Irish-Speaking Districts."

Dublin.—Irish language enthusiasts in Dublin have started the idea of "Irish-speaking districts." All lovers of Irish are invited to meet at some place which becomes for the space of a couple of hours a little Irish-speaking district. There you join some group of the party and talk Irish, or, if you do not feel equal to that, you just stand around and listen.

To Retribute French Fleet.

Paris. — Minister of Finance Louis Klotz was authorized by the cabinet to introduce a bill in the chamber of deputies granting 1,830,000,000 francs for the reconstruction of the French commercial fleet.

Detroit Under Prohibition

Is the Largest Dry City in the World.

The following is from an article in the Christian Guardian, of May 14th: "Frank B. Esler, special representative of the Outlook, has been visiting Detroit to see how prohibition works in the biggest dry city in the world. The writer says:

"I called on James Couzens, Detroit's mayor, a good liver himself, tolerant, well-bred with a twinkle in his eye. Formerly he was a commissioner of police, and he is therefore no theorist about conditions." He said:

"I have never been a teetotaler. I voted wet, but if another election were held, I would vote dry. I believe Detroit with prohibition, has been a revelation; it has upset all the alarmist predictions of the wets, and more than sustained the rosier predictions of the dries. I am in favor of prohibition for Detroit, because it has made us a better town, and I believe the public as a whole is impressed with its benefits. The personal liberty argument does not appeal to me. The question is, will it bring the greatest good to the greatest number? Here in Detroit it has done that unquestionably. Petty crime has been reduced sixty to seventy per cent. Child welfare has received an impetus which millions of dollars in appropriations could not have effected. Collections are better, merchants report greater business from the working classes, and the banks' show a great increase in deposits. There has been no increase in the number of drug addicts. There has been bootlegging, to be sure, but Detroit is the largest dry city in the world; and we have no more smuggling than we expected."

The Superintendent of Police said: "This is my answer: Only half past five and a Saturday day, and me getting ready to go home, in the booze days we used to be always here until midnight; often all night; what with murders, cutting grass, shooting, shooting, cowards, family quarrels, women screaming, beaten-up men, we were as busy here as a department store on a Christmas Eve. Let me tell you that Detroit, bootlegging or not, is a better city to live in."

Big Housing Plan

Winnipeg's \$2,000,000 Scheme Is Now Likely To Be Realized.

Winnipeg. — Winnipeg's \$2,000,000 housing scheme will be proceeded with immediately.

At a meeting of the city housing committee and the citizens' housing committee, two sub-committees were appointed, one to safeguard the city's participation as to legality and another to approach public bodies to raise a \$100,000 guarantee fund.

The board of trade secretary announced that the board is willing to raise, by a joint stock company agreement, the ten per cent. guarantee fund required to indemnify the city against loss and that its members are prepared to do everything in their power to assist the scheme.

Mr. Babcock was driving through the country trying to buy a mule. He was directed to a colored man who had one for sale.

"Do you want to sell a mule?" asked Babcock.

"Yaas, sah," replied the owner.

"May I ask what you live, sah?"

"What has that got to do with it?" queried Babcock.

"Well," explained the negro, "I ain't gwine ter transfer dat mule to nobody dat lives less dan 200 miles away from here. When I sells dat mule I wants to git rid not only of the mule, but of all conversation 'appertaining to him."

When Books Were Rare.

When books were rare and only the richest persons and a few poor scholars possessed them, they were sometimes most automatically bound. As an example, we are told that Queen Elizabeth of England owned a book which was bound in solid gold, which she wore suspended from her waist by a chain.

Useful Weeds

Vegetables Considered Desirable Foods Once Looked Upon As Rank Growths.

Reading: the intelligence of a great nation to the investigation of weeds seems trivial and purposeless. Reflect, however, that the fruits and vegetables considered the most desirable of foods were once looked upon as rank and "vagrant" growths. The tomato is such a one, long avoided as a poison; he was a brave man who first regaled himself with this delicacy.

Even now, as we have had occasion to say before, whole areas of salads go to waste in unplucked dandelions. Dandelion greens fetch 40 cents an order in a loop restaurant. How many thousands of dollars' worth are thrown in the fields and lawns of Cook County alone?

The garden editor points out that Americans are paying exorbitant prices for substitutes imported from abroad when we have the means of original manufacture in our own back yards. There is no knowing how far this unexplicable deception extends; nor will we know until we explore our own resources.

Undeveloped resources means not alone the unemployed forests and vines and agricultural lands, but the myriad little things that are constantly cropping out about us. Why look for gold mines when a man who invented the collapsible collar button made a million?

In the spring and autumn the weeds are a nuisance. Perhaps they should be destroyed. But before this is done as an annual destructive process why not investigate the full possibilities of each species? Why not salvage first, destroy afterward? There may be thousands of ideas in developed among the people of the nation. A clearing house, scientifically conducted, might mean a boom to mankind.

Heavy Fruit Crops In B.C.

A Record Crop of Fruit In Most Districts Is Being Predicted.

Reports from various points in British Columbia show that the fruit crops throughout the province this year promise to be very large.

The strawberry crop has been an enormous one, and the growers have obtained good prices. At Mission and Hatzic many of the fruit growers are reported to have cleared more than \$20,000 from strawberries this season. These returns are marvelous when the size of the ranches is considered. A man who had three acres in strawberries has had a gross return so far of \$6,400. Another has netted \$3,000 from four acres.

Raspberry picking is just beginning and the crop is said to be equally good. Hundreds of girls and women in strawberries has had a gross return so far of \$6,400. Another has netted \$3,000 from four acres.

Indications point to an increase of about twenty-five per cent. over last year's apple crop in the Okanagan. It is claimed that this year is the best fruit season ever experienced in the district.

Broken In Body and Mind.

London. — Germany is a broken nation, both in body and spirit and a long time will elapse before the efficiency of her people is restored. It is declared in a report of British scientists on food conditions in Germany, issued in the form of white papers. The war time starvation of the people is responsible for the ill-effects for which recovery will be affected according to these authorities.

Japanese Get California Land.

Eresno, Cal. — The Glanville Vineyard interests, comprising 400 acres of fruit and alfalfa lands near Visalia, have been sold for \$475,000, and will be leased to a Japanese syndicate headed by the Sumida family. It is planned to sub-lease the ranch in small parcels to Japanese.

Tailors and dressmakers should have a kindly feeling toward the serpent which induced Eve to engage in the manufacture of fig leaf garments.

Bolshevism And Christianity

Established Anti-religious Propaganda As A Recognized Institution.

"Bolshevism and the Christian religion can not both survive," affirms the report of the Senate Judiciary Committee on Bolshevism. An examination of this report, says the Minneapolis Tribune, will convince the American Christian that "Russian Bolshevism, triumphant in this country would be followed by the confiscation of 20,000 church edifices, by the suppression of all denominational Sunday schools, seminaries and colleges; and by atheist dictatorship domination over 41,926,854 church members." What the Bolshevist government has programs to show its hostility to the Christian religion is thus summarized from the Senate report by the Minneapolis paper:

"It has confiscated all church property, real and personal.

"It has established the right of anti-religious propaganda as a constitutionally recognized institution."

"It has suppressed Sunday schools and has expressly forbidden the teaching of all religious doctrines in public, either in schools or in educational institutions of any kind."

"It prohibits religion from being taught or studied except in private."

"It has abolished all recognition of a supreme being in governmental and judicial offices."

"It has discharged expressly all clergy and servants and employees of church bodies and has deprived them of all right to hold public positions."

"Under the old imperialistic regime—since that it is—has become the practice by both custom and decree that every newspaper and every periodical published on Easter Sunday throughout the Russian Empire carried the commemorative headline: 'Christ Is Risen from the Dead.' Supply of 1915 the Bolshevist publications substituted the legend:

"One hundred years ago today Karl Marx was born."

Switzerland's Attitude

Did Not Ignore Any Duties As A Neutral.

Hints in some Paris newspapers that are commonly well informed threaten Switzerland with the sacrifice of Geneva as the selected headquarters of a League of Nations, if she does not reconsider her determination not to become a member of the League unless the early admission of Germany is provided for. There is nothing official in such hints, but they are not to be neglected.

The Allies understand perfectly well that in the past Switzerland has depended on Germany for coal to run her factories and to warm her people. They condoned or winked at her shipment of bullets and rifle and beef to Teutondom even while war was going on. This was partly, if not chiefly, because they could not offer to furnish her coal themselves. Now that the war is virtually over, they are little better off. Europe's shortage of coal is compelling continuous attention.

Under these conditions there is not likely to be a disposition to apply the hard hand of force or coercion to Switzerland, which did not ignore any of her duties as a neutral, and was subjected to very large expense in performing such duties. But it would be almost incredible that Geneva should be the central point for a league of which Switzerland was not a member.—St. Thomas Times-Journal.

The town councillors of Mudville had organized a raffle for the benefit of poor Mrs. Muggins, and finally the oldest inhabitant was asked to buy a ticket.

"What for?" asked the ancient one.

"For Mrs. Muggins," replied the agent. "Didn't you hear?"

"Oh, yes, boss, I heard all right," said the fossil; "but what I want to know is—what am I going to do for Mrs. Muggins if I win her?"

Barcelona Bombing.

Madrid. — The explosion of a bomb in Barcelona, injuring four persons, is reported in a despatch from that city. The police are investigating the explosion, which took place in the Rue de la Rambla.

Southern Alberta Stockmen Asked

Not to Sacrifice their Stock

The Department of Agriculture has
appointed John Glendenning to receive
cattle to consignors in Southern Alberta
and dispose of them at the Calgary Stock
Yards and make returns to consignors
as is done by regular commission march
ants. This is to check the sale of stock
to speculative buyers who are coming the
country in which the people are suffer-

ing most from drought.

Owners of cattle are warned by the

department that there is no need of sacrific-

ing cattle stock at the prices which

some of them are being sold for at present.

The open stock yards at Calgary and

Edmonton are absorbing all stock at a

fair price at present. Farmers in Central

and Northern Alberta are sending in orders

for stock and the consigning of stock to

central markets is the right method of

selling. It involves the least expense to

the consignors and likewise the least ex-

pense to the purchaser. The farmers in

Central and Northern Alberta can nearly

all stand increases to their cattle stock.

In addition to this demand there will be

no less than four thousand head of cattle

marketed during the next two months.

It is desirable that these not be offered

all at once but should be moved into the

market gradually. The kind of stock

most desired is yearling and two year old

heifers with a limited number of dairy

cows. Shippers who wish their stock to

be handled by the department should

consign direct to Mr. John Glendenning

at Calgary. It may be consigned likewise

to any of the regular commission firms

at Calgary and Edmonton. The Live

Stock Commissioner at Edmonton should

be notified of the making of shipments

in order to have forward purchasers who

are getting cattle under the provisions of

the Live Stock Encouragement Act.

S. G. GARYLIE,

Live Stock Commissioner.

Great War Veterans' Association

At a meeting of returned soldiers

held in Crossfield on the 15th inst.,

it was unanimously resolution to

form a local branch of the Great

War Veteran's Association. Mr.

Hume, of Calgary, who came north

to assist in the local branch, set forth

the aims and objects of the Associa-

tion at considerable length, and his

address was much appreciated.

Owing to the fact that only very

short notice could be given of the

meeting it is felt that there are

many returned men in this district

who are unaware of the existence of

this newly formed branch, and it is

hoped that all ex-soldiers will join

the Association without delay.

The following officers were elected:

President, - Comrade Ivor Lewis;

1st Vice-Pres. " Fenwick;

2nd " " Ash;

Sec.-Treas., " S. J. Hunter.

The Secretary is located at the

Canadian Bank of Commerce, will

be pleased to enrol new members.

Badges and membership cards for

those who have already joined can

be obtained from him.

Fined \$50 and Costs

As a sequel to an automobile accident

which occurred on the Calgary-

Crossfield road on Saturday, Ed.

Myers was fined \$50 and costs by

Magistrate Sanders, in the Calgary

Police Court on Monday morning,

when he was found guilty of being

drunk in charge of a car, and an

additional \$25 and costs for having

liquor in a place other than his

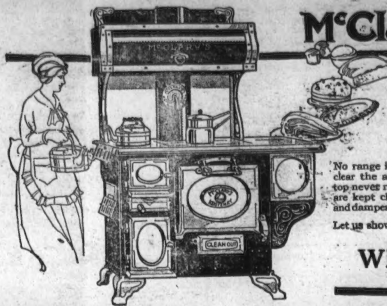

private dwelling house. E Myers

and E. Pyper, who were in the car

at the time of the accident, were

fined \$5 and costs each for being

drunk in a public place.

McClary's Kootenay

TOP, bottom and all four sides
of the Kootenay oven are
evenly heated. That is why it is so
famous as a dependable baker.
There is a thermometer, too, to
tell whether the heat is right or not.

No range is quite so easily managed. Duplex grates
clear the sides at a single turn. Burnished cooking-
top never needs blacklead. Nickel-plated steel oven walls
are kept clean with a damp cloth. Well-fitted joints
and dampers hold the fire—and the oven heat—for hours.

Let us show you the Kootenay.

Electric Starting and Lighting

NO car has a better starting and
lighting system than that now
available to purchasers of Ford Cars.
It is a Ford product, built into the
motor—

—a positive starter as reliable as
the motor itself.

—a powerful lighting system,
uniform under all engine speeds.

On the open models—Touring Cars
and Runabouts—it is OPTIONAL
EQUIPMENT.

On closed cars—Sedans and
Coupes—it is STANDARD
EQUIPMENT.

On all models the Ford Standard
Magneto also provides ignition
independent of the batteries.

See the Ford car with this new
equipment.

1 Ford Runabout \$665; Touring \$790
On open models the Electric Starting and Lighting
Equipment is \$100 extra.
Coupes \$875; Sedans \$1175 (closed model prices for
closed Electric Starting and Lighting Equipment).
These prices are F.O.B. Ford, Ont. and do
not include the War Tax.

Leslie Farr, Dealer, Airdrie.
